

ORO-TEK™

TPMS SENSORS

One sensor covers 70%.

Patent pending Multi Vehicle Protocol (MVP) technology is here. One sensor is all you need to cover 70% of ALL VEHICLES not just Ford, Chevy and Chrysler.

iORO 001

Our first iORO sensor covers an astounding 70% of the entire vehicle market. This means that you can service most customer TPMS systems with just one sensor.

iORO 002

Our second sensor with MVP technology covers most 433 MHz Apps including BMW.

Total Coverage

Our complete line (60+ SKUs) of sensors work exactly the same as OE sensors. ORO-TEK covers 97% of the TPMS vehicle market.

No New Tools

All ORO-TEK sensors, including iORO, work with your existing tools so you don't need to buy any additional tools.

RELEARN & APP GUIDE

We built the industry's most comprehensive, state-of-the-art online Application Guide. Easily search online by year, make & model. Our knowledge base delivers all known re-learn procedures for sensor to ECU pairing. Use this tool to identify what sensor fits any vehicle and its re-learn procedure.

WHERE TO BUY

To get ORO-TEK sensors including iORO with MVP technology go to www.ORO-TEKUSA.com and click "Find a Distributor".
